Good localities Wisconsin

Merrillan Junction - Excellent.

On a flat, not nearly bare,
showing traces of tamarack &
pine (white). Nearby are high
hills of sandstone.

Good hotels, etc.

From Merrillan to Oroy (through
Alfida) is the sand flat
country - devoid of trees
almost.

At Oroy there is a hotel
& the hills are not far. Also
mushy is shown very fine.
(Says to have a lake)

Rever. There is plenty of
the young pine (tamarack
scrub, - but not much
else seen.

Good stopping place.

From Arund (just west of Lake Emily
to Scandinavia the country is
different - mostly farm. A little
group west (3 or 4 mi) from
Scandinavia show tamarack &
pine. There is a lot of
tamarack east of Scandinavia.

This is fine.

Between Seymour & station west a
large group with tamarack, - especially
under latter station.

Expense account - Granite.

Hack ²⁵ , luggage at Granite 10 ¹⁵	.35
Board & Lodging - Granite	3.50
Rope, line, boxes, etc.	.65
Handling rock, etc. (2 trips)	.50
Unpaid expense	.90

Remainder trip.

Fare to Sibley (50 mi.) 482	1.50
" Sibley to H.P.	5.70
Supper Sibley	.50
Expenses (board, etc.) H.P.	-
Fare to Iron Bay	8.35

June 18th

Reached Granite, Friday
A. M. at 10 + o'clock.

Put up at Mr. Quist's.

He works in quarries at
Rovena. Old Mr. Ben.

Trainer is also stopping here.

Went out before dinner near

by & picked up a box of
plants. In the afternoon

I went out toward bridge
but got only to "Hubey" Swenson's

place - Found many *Pentstemon*
grandiflorus - etc.

Daisy, etc.

55

June 19th Saturday

Rode out with Quist to Reed's
exposure near state line.

Collected fine Buckhorn, - both
birds, etc. Lichen, etc.

In afternoon cared for
material.

Rode in with Mr. Markham
- lives S. of Granite.

June 20th - Sunday

Drove with Quist to
exposure at extreme N.W.
corner of state near Markham
Dakota farm.

Found many fine lichens &
other plants, especially
Woodnia scopulina &
Opuntia fragilis in bud.

In the afternoon I came
for material.

June 21 - Monday.
Rained nearly all day.
Went out just before dinner
for living plants (Ranunculus
etc.), and afternoon I
went out to Reed's exposure
again. Got glacial
marbings, etc. (see notes).
Also collected additional
plants.

June 22 - Tuesday.
Rode out with Quist
to Reed's exposure, - worked
there, - particularly on the
rock exposure - & then went
over to Mark's exposure, where
I got bare lichens.

Very warm.
In afternoon dried, etc.

June 23 - Wednesday.
Spent forenoon in packing
& shipped all material in
P. M.

June 26 -

Met Sam Reddick in train.
 Travelled with his friend ^{Miss} Nelson
 & roommate to Fairchild
 Junction on my way to Green Bay.
 Saw many new signs.

June 26th

Reached Green Bay & met
 Eichel - stayed all night
 at Eichel's with Mr. Black
 Mr. Vasey of Montreal
 Went with evening train
 to Montreal.

June 27 -

Was located with Mr. John
 Wattawa, mayor. His wife
 is an Irish lady & children
 James & Virginia, John, Katharine
 & then.

Spoke P.M. Little Emily, Elizabeth
 & Mary's flowers.
 June 28 -

Rained - Was at Watkinson's,
 etc. In evening went
 to Lyra Hall to hear
 music, etc.

June 29 -

Went out with Mr. To Harriah
 to Cammerton - to Father Lyle's
 Rooms. Met Father
 Pellegrin (Belgian), Father
 Winkler (German), Father
 Lusk (English) & Father
 Ricketts. Mr. Nick. Palmer

has built near by.
 J. Kial & J. Black were
 along. After storm went
 to Tawant Swamp.
 Collected

June 10
 Left Kermann at
 7²⁵ AM & reach
 Green Bay at 10.

Left at 3¹⁰ P.M. on
 C.W. R.R. for Cedar Rapids
